

To all parents

Hekinan City Board of Education

Shinkawa junior high school principal: (Sumiya Taketora)

When elementary school or junior high school students are infected with the new coronavirus infection, and about measures when they become a close contact with the infected person.

We deeply appreciate for your support for Hekinan City's educational activities.

The number of people infected with new coronavirus infections in the prefecture is increasing, and it is necessary to be more careful in preventing infections. Therefore, according to the notification from the Ministry of Education, we need to take the following measures regarding the measures of the school when a person infected with a new coronavirus infection occurs in and around school, so please understand and cooperate.

Note

1 When a student is infected with a new coronavirus infection.

Student	The student is suspended from attending school.
School	All or part of the school will be temporarily closed. After that, if there is a high possibility that the infection has spread within the school, all or part of the school will continue to be temporarily closed.

2 When the student becomes a heavy contact person with a new coronavirus infection, or when the student is confirmed to take a PCR test

Student	The student is suspended from attending school.
School	There will be no temporary school closures.

3 When the family member of the student becomes an infected person or a deep contact with the infected person

Student	The student is suspended from attending school.
School	There will be no temporary school closures.

4 Other

- Regarding the above measures, the Board of Education and the school will be instructed by the public health center, and after consultation, the period of suspension of attendance and the period of temporary school closure will be decided. In addition, these measures would be changed in the future due to notifications issued by the country and prefecture.
- We will continue to prevent infectious diseases at school. Even at home, we ask for your cooperation in preventing infectious diseases by checking the physical condition of children and taking their temperature before going to school.
- If your child or family members have any serious incidents such as infection with the new coronavirus or other accidents, please contact the school.
